SUMMARY

WordPress Developer with extensive experience in creating and managing high-performing WordPress sites and e-commerce stores. Over the past 9 years, I have specialized in both front-end and back-end development, delivering user-friendly, visually appealing, and functional websites that drive business growth. My expertise includes handling all phases of web design projects, from initial concept through to completion, ensuring timely delivery and client satisfaction. I have successfully increased client conversion rates by 35% and improved site performance by 98% through effective SEO optimization and responsive design. My background also includes finance, auditing, and data entry, enhancing my analytical skills and attention to detail.
